

# Far Away

Tech N9ne

Man, I can't even picture myself, not breathin, but its certain.  
I love too much I love to many to count em'  
So extras and pets is easy to go on without em  
'cause everything goes away  
Love eventually gets stowed away  
Why does it have to be when your breathin when even in then your heated then  
wonderin why its cold today  
Immortal is friggin impossible but everytime I look up I'm seein an obstacle  
What's gonna happen when time is up an I gots to go  
Beautiful lanes took a whiff of my obstacle  
Its not that I'm afraid of death but afraid of the thought of my people laid  
to rest  
They saying there is 6 million ways of death but not even one way to fade th  
e stress  
Its certain that a person someone workin to close the curtain  
Or maybe something out of some dream with a devilish show for hurtin  
Sometime I be wishin I didn't love  
'cause when its away I be missin love  
Your mother your father your children are livin to die from the crypt and th  
e ditches dug  
From the process I get nausous 'cause I can't see my death and its causes  
Pawkey saw it around the corner but me not breathin is a pound of bologna  
I keep fightin and I'm tryin to get right in my mind brian  
'cause one day I'm gonna see you even tho I can't picture the N9ne dyin  
I'm flyin  
Far far away from here  
Nothin I can do about it  
Everything I love go away from here  
Wishin I could do without it  
I think you gonna go  
Far far away from here  
Nothin I can do about it  
Everything I love go away from here  
Wishin I could do without it  
{Big Krizz Kaliko}  
see I tried to call for you father, but nobody answered  
And I tried to scream out loud, but nobody pampered  
But you leaving tomorrow and I'm just a youngsta deep in the sorrow  
Nobody wants to die  
And I'm trying to get away from the pain I'm never escapin the  
Maybe I did to much to you you you by forsakin ya  
and now I see a reflection of you of my sun  
'cause he the same complexion you the color of the sun  
And now I'm done baby makin hatin it to even see my baby sleep  
'cause he gotta die one day your very dead indeed  
And I'm stay too far away from him  
Spent too many days from him  
Tears steadily fallin I'm creatin em'  
And its gettin colder your gettin older year by year  
Never know when you gotta go far away from here  
Listen here  
Far far away from here  
Nothin I can do about it  
Everything I love go away from here  
Wishin I could do without it  
I think you gonna go  
Far far away from here

Nothin I can do about it  
Everything I love go away from here  
Wishin I could do without it  
{guitar solo}  
far far away from here  
Everything I love go away from here
