

# Girl Crazy Crazy Love

Tech N9ne

To all the girls that I loved before  
I only wanna love you more  
I know it sound shady, lady

Girl crazy, I know nobody can save me  
I'm spreadin' my crazy love  
I'm dippin' out with your lady  
To give her some crazy love  
Ain't tryin' to have no more babies  
So come for my crazy love  
Enough to make her go crazy  
'Cause I'm all about crazy love

I was born Aaron Dontez Yates  
Now this song's for Aaron Dontez' mates  
If you ever been with me  
Had some sex even kissed me  
Spent some years with me  
Or even a quickie trip thee  
Way I handle the beast in me  
The piece in me and equally  
I chief to say the least  
Women are weakin' in me  
Since I was a little fella wanted me a female(a) izabella  
What the hell not one but it's more like twelve lemme tell ya  
Hella, bitches love me ones and love me again  
While you're lovin' me I'm lovin' your friend  
Ya'll just lovin' the sin  
And all that tech time you're lovin the spin  
But I ain't tryin' to be no husband again  
Look at all this mud that I'm in  
And all this dirt that I do  
And this hurt put on you it's true  
Worse that peppy le pue what I do  
To my ladies I remember the  
Message I sent to ya  
I know you think I'm a friend to ya  
But I'm tryin to put it up into ya

A child of the ghetto, my uncle explained it to me  
Kick it with bitches the picture that he painted for me  
Now that I'm a G I'm 'bout to go in a depth  
Got low when I crept  
With a bitch, you niggas ain't know when I slept (with who?)  
Sonya, Tonya, Vonya, big booty Sandra  
Wonda, Londa, Rhonda, Monya, v-neck and Anya  
Anxious to feel the pound between her, kiss the crown on my wiener  
Once you lay down then you stuck with the killer clown, the N9na  
Witness my sickness this itches for the bitches with the quickness  
Kisses for misses this clique is suspicious then I hit this  
But he really don't know I had the most ludicrous fling with his girl  
I think the female is really the most beautifulist thing in this world  
They take of their shirt, take off their bra  
Then let you take off they skirt and panties, keep a nigga in awe  
In-between 'em, such a freedom is lovin' monster sex  
For them to let you inside 'em is a fucking compliment

The homie say for true he sick  
'Cause he choose these chicks  
On the road and let them sut min pik  
They tellin' me I show my wife no fedelity and lost it literally  
My way with women is costin' considerably  
Bitter is he who loved and lost with the grudge and crost the moss  
In the land where the word lost is boss  
So we quest for love and flings with the finest this life can bring to ya  
True you two have a thing but it'll never ever be singular  
Guess you can say it's the angel in me  
That got these bitches havin' dreams of mangelin' me  
I know it hurts it sucks for women, but they let me thrust' within 'em  
Why do they lay with a snake? They can't stop they lust for venom  
But you will not forgive me baby, you gots to admit we crazy  
Because you bring me ya light and I'm just so dips and hazey  
My heart is massive but they want my dick  
Bitch, you ain't never felt no shit like this, so gimme a kiss
