

Head Now

Tech N9ne

We've been rocking this shit for the difference
Sick and psycho, motherfuck, is equivalent
People would normally knock, they all on a jock
But I'm asking for deliverance
We don't need these broken, you hoping for chocking, voting
Take the bets and the beers
'Cause everybody's reppin' a kin but you wasn't checking
Second messing with his
Rock and roll flow, lock and load bum
I been busting without a concern
Stoppin' y'all, slippin' off y'all horse, stood up then I shot in her perm
Got your lady hopping my wood 'cause everybody's talking my hood
Now you haters love us all when you reach out, I'm not dissing, I'm good

Been getting a whole lot of love for a while now
And the people who hated us, super elated, ready to bow down
Now when I walk in the room all of the haters are dead sound
Now they probably all on my nuts, we won't be needing no head now

We don't need no head now
Who the fuck is attentive, let me all to say it again
We don't need no head now

You disliked me, now you like me
'Cause you see that my jewelry's pricy
Never take it lightly when a brother write this
The music and message is mighty
Get up off my deal for real, you never knew I had the skill to kill
But now you know what I conceal is ill
'Cause now the shit that I spill get meals
People hop on a bad wagon, when you rocking in your damn habits
Back in the day wasn't no hand clapping
Now try to get to me, they ransacking shit
So get in my circle but fakers be hasty, yo
Get the fuck out of my face, I don't ever need your act, your felatio

Been getting a whole lot of love for a while now
And the people who hated us, super elated, ready to bow down
Now when I walk in the room all of the haters are dead sound
Now they probably all on my nuts, we won't be needing no head now

We don't need no head now
Who the fuck is attentive, let me all to say it again
We don't need no head now

Never needed you hop on my Johnson
But you cannibalized all alliances
Now I got 'em all lined and ready to suck me dry with a bunch of biancas
Pedophiles off their knees 'cause the trigger's too late for the second port
ion
Petty crockers and mockers are gaveling cock until I'm a headless horseman
Now you all smiles, I made it and y'all so proud
But bitch I don't see your true colors and now you can't hide 'em, you fuckin'
g piranha
Put this on my momma, I'll never be him
Second off for the latest of trends, getting lost in the whisky, you never w
ere with me

Success is the sweetest revenge

Been getting a whole lot of love for a while now
And the people who hated us, super elated, ready to bow down
Now when I walk in the room all of the haters are dead sound
Now they probably all on my nuts, we won't be needing no head now

We don't need no head now
Who the fuck is attentive, let me all to say it again
We don't need no head now
We don't need no head now
We don't need no head now
