

# Shadows On The Road

Tech N9ne

I see shadows on the road again  
Wonder if they comin' for my soul  
I get trapped up in this mode I'm in  
And will I ever grow old?

I member them high nights, on X we find sites  
To climb heights, unheard to man we line white  
Molly up it had to be non fight  
Mix it with weed and wet it's chronkite  
That shifts beyond hype  
Spittin somethin we be trippin' and seeing some shit  
It's fuckin' up the buzz of me and the clique  
So we hop up in the whip and flee with the quick  
But the shadow make us swerve and we on the strip  
Did you see the shit? (Yeah I saw the shit)  
Did y'all see the shit? (Yeah we saw the shit)  
All agree that a shadow was crossin' the street  
Then immediately vanished we need a hit

I see shadows on the road again  
Wonder if they comin' for my soul  
I get trapped up in this mode I'm in  
And will I ever grow old?  
And will I ever grow old?

Is it comin' for me because of all the shit  
That I did in the past was bad to people  
Mad and evil, if your the A.O.D. I'm sad to meet you  
Angel of death when I quit doin' X  
Because of seeing you every night on the stretch  
So i've been clean for three years  
And counting still I'm seeing shadows will they scheme for me  
To follow them into the pit of despair  
Punishment for what I did in this lair  
What if evil spirits live in the road  
To take the kinrid spirits crippled up souls  
I don't know how the spirit thing goes  
Real or livin' in my fontal lobe  
Will I be livin' life until I'm okd  
Or will I be takin' by shadows on the road

I see shadows on the road again  
Wonder if they comin' for my soul  
I get trapped up in this mode I'm in  
And will I ever grow old?  
And will I ever grow old?
