

# Shame on Me

Tech N9ne

Tell you the reason why my brick wall is up  
I was at her mom's house, in her basement  
Waitin for her to bring me some food to eat  
She's takin a really long time  
So I thought I'd creep up the stairs to startle her  
And I heard her on the phone... and she said:  
"I know... that it couldn't be Donny's baby  
Because me and Donny use condoms"  
I couldn't walk, man

Once bitten, twice yah for the night sky  
Always afraid of the beginnin but the endin might lie  
Women sin just like men I never been like why  
Cause my heart has been torn apart and I really felt my life die  
Since, then, I put up a wall  
20 foot tall, women climb it they surely to fall  
Out of love, but not lust  
Cause a thug has got cut  
But the blood has been mopped up  
Now my drug is a hot fuck  
They swore they would never be phony  
Like whores, it was never me only  
My Lord, I would rather be lonely  
Fool me once, shame on you; twice, shame on me

"What are you doing... I want you to come over  
I left the door unlocked, and... oh my god"

It doesn't have to mean anything (x3)

Hurt me once then I'm an idiot if I stay  
Cause I'm over her twice that ain't no kinda game that I play  
Her knife was jagged but now I have it my way  
I just grabbed it without feelin I stabbed it pipe-lay  
Yeah swallow, but I'm hurt-free now though  
Been suffering silently for so long this is my growl  
Now they sayin I don't feel enough  
Cause I don't wanna be wonderin if it's real or what  
Broke up with me once, I came right back like a dunce  
But then the second was funk, now I'mma be really blunt  
That really stirred none  
We lovers at her mum  
Broke up with me twice and you don't get a fucking third time

Listen to me... you don't have to spend the night  
You can just come over for a little while  
I'm not gonna tell anybody, I swear to god

It doesn't have to mean anything (x6)

Oh my god... you look so younger than earlier  
And I can still smell you on me  
I just wanna taste you, just for tonight  
It doesn't have to mean anything (x6)
