

# Shit Is Real

Tech N9ne

It's friday night and I  
Got my check man I  
Damn I really need a (PARTY)  
So when the weekend come  
I'm tryin to get beef then some (ALL NIGHT ALL DAY)  
Tryin to break the monotony  
Get away from my property  
Ain't no way that you stoppin me  
At a party I got to be  
But the (?tech?) was a shock to me  
That will let my velocity slow  
Wanna party with me let me know

We party cause we in pain  
We party to celebrate  
To keep from goin insane  
We party just to escape  
No matter how much the cost  
Regardless of what it takes  
You call my phone and it's off  
I'm tryin to numb the mistakes  
But if you feel like you chill put yo cups up  
But if you ill about yo bills and it's just touch  
Take a drink but don't spill  
This ain't no time to be still  
Fuck the world, what you know, and realize shit is real

Shit is real  
Saturday night and I  
Still got some check man I  
Damn I really need a (PARTY)  
Now that the weekend's here  
It's time for the cheefin and beer (ALL NIGHT ALL DAY)  
Whether you puff or you're drinkin  
When life is tough we go seekin  
Somethin to thrust or go deep in  
Work is rough with no freakin  
So we lustfully speakin  
Girl, yo what's up for the weekend?  
Plan a trip to las vegas  
A room at the venetian  
Lets go

We party cause we in pain  
We party to celebrate  
To keep from goin insane  
We party just to escape  
No matter how much the cost  
Regardless of what it takes  
If you're found or you're lost  
Hey baby these are the breaks  
But if you good it's understood that you prosperous  
We from the hood and drinkin good means a lot to us  
Put away yo knife and yo steel  
Have some fun and you'll feel  
Like a shield has been lifted  
Yet and still shit is real

Sunday night and I  
Blew my check man I  
(damn) damn I really wanna (PARTY)  
Now that the weekend's done  
I'm tryin to sleep in some (ALL NIGHT ALL DAY)  
Hey yo this song's for the strong  
Not for the backboneless  
Workers who don't make enough for they own  
But give to the homeless atonement  
For the wrong that has grown  
Strong for the long  
Spent time for dimes  
You better take advantage of this moment  
Yo

We party cause we in pain  
We party to celebrate  
To keep from goin insane  
We party just to escape  
No matter how much the cost  
Regardless of what it takes  
Never put your trust in the state  
They not controllin yo fate  
But if you made it then I'll say you did yo thang today  
But if you lost it then I'll say party yo pain away  
Do your job or your ??  
Don't lose control of the will  
It's sunday night but on monday realize shit is real
