Money make the world go round New York, money make the world go round

Some people want nothin out of life  
And some people want it all  
Some people ain't livin life right  
But fast money make God call  
I'm prayin to the angels, but worship the devils  
Yeah a nigga rich but I'm livin like a rebel  
Ridin with my strap on, foot on the pedal  
Them silly beef raps, now they on another level, level  
I grew up on a crop side, the New York Southside  
Stayin alive was no jive  
Standin on the strip you get stuck like velcro  
Jake jump out, you see heads and elbows  
Run nigga, run nigga, here they come nigga  
Throw that pack nigga, toss that trigger  
Kid I'm still in the P's, girl I love the Audi  
If yo' ass pregnant girl, leave the party  
My stashbox so big, it could move the shotty  
God it ain't my fault, if I shoot somebody  
I ain't in it to lose, I'm in it to win  
Sex, money, murder, take the safety off my sins (yeah!)

Money make the world go round, you better get it  
Money cause hatred as soon as you get it  
Money make whores, money cause wars  
Money make the world go round so get yours

Yeah, money make the world go round and I got her  
Buckle down, do anything for the dollar  
Enough bills'll make your blood spill  
Kill for bread, anyone will from Queens to Gun Hill  
I'm one man, but I own more than one steel  
Shiny trey-pound, black 9-mil  
Magucci leather got me shoe crazy  
Quarter mil' vehicle and I'm a oops baby  
And if I'm wearin my chain it's 380  
Like Fat Joe, nigga you crazy?  
Man fuck friends, this T-dot-O-dot-S  
Have it how you want, speed knot or pop chess  
Police stompin niggaz by the twenty  
And shootin by the fifty, ain't a damn thing funny  
Matter fact, man I'ma do anything for the dough  
N.Y.'s finest with llamas and mo'

I love that money, I need that money  
It gives me shelter, it's there when I'm hungry  
It feeds my kids, it fills my fridge

It pays my bills and the mortgage on the crib  
It keeps me icy, it make hoes like me  
It gives me, seats at the Garden next to Spike Lee  
It made me rich, it made me change  
I seen a lot of places and bought a lot of things  
You got me haters, you got me drama  
You paid for the lawyers, you paid for the llamas  
You make niggaz goners, you rule all the corners  
When somebody dies, you gotta pay the moroners, moroners
