Yo Come On Move This

Shake That Body
Shake That Body

People dont you know, dont you know
its about time
cant you hear the jam is pumpin
while you taste the piece of mine
many different flavours
and the spice is strong
get into the hot stuff
let me pour a little some

Baby let me show you how to do this
you ve gotta move this
youre doing fine
theres nothing to it
you gotta move this
come on and move this
shake that body for
