Recall

Technotronic

Party people got yourself a recall
Party people come to party y'all
Everybody gonna see what to do how to be
Before you before me, come to party

Yes y'all you're having a ball
Go blow the horn and sound the recall
Spread the word from here to Timbuktu
Have you heard it's comin' through
Right now from back up down
Party all around town
All of the party people get busy
Party harty till you get dizzy

Party people got yourself a recall
Party people come to party y'all
Everybody gonna see, what to do, how to be
Before you before me, come to party

Come along come along
Everybody come down to the party
Make my day c'mon shake your body
Make my day give up and give your smile
All the way live up a simple life style
Some say you're foul n some say you puke
Though I don't give a hoot shoot
You're here tonight to show us your stuff.
Knocked yourself out like you can' get enough
