

# Together

Ted Nugent

Summertime  
Summer days and different ways of loving you  
Starry skies  
Starry nights and northern nights are shinin'  
The crystal ball  
Showed me all there was to see  
Your time, and mine belong together  
Together.....

Many times  
Wanting you and needing you  
Yes all the time  
Many nights  
Loving you and holding you  
And feelin' fine

The crystal ball  
Showed me all there was to see  
Your time and mine belong together  
Together.....

Thinkin' back  
Bout the time we had along the ways  
Oh! summertime  
You've gone to cloudy skies  
And rainy days  
The crystal ball is on and I  
The vision seems less clear tonight  
Your time and mine belong together

Together....  
Together....  
Together....  
Together....  
Together....  
Together....
