Summertime Summer days and different ways of loving you Starry skies Starry nights and northern nights are shinin' The crystal ball Showed me all there was to see Your time, and mine belong together Together..... Many times Wanting you and needing you Yes all the time Many nights Loving you and holding you And feelin' fine The crystal ball Showed me all there was to see Your time and mine belong together Together.... Thinkin' back Bout the time we had along the ways Oh! summertime You've gone to cloudy skies And rainy days The crystal ball is on and I The vision seems less clear tonight Your time and mine belong together Together.... Together.... Together.... Together.... Together.... Together....
