

# Can't Get With You

Tedashii

[Verse 1:]

I am just a man with a name from Japan  
In a war like Iran when they fought though I ran  
No I stand man confused I don't know who I am  
As they tricked me like a scam  
Until they arm it Uncle Sam  
I don't wanna talk about it  
Get into it but I'm in it  
Born with it like my image as they long for something vintage  
Fake games like a scrimmage as I'm pushin into my limits  
I just wanna get up out it the college but I'm remy  
Takin shots from the roof top like subliminal  
I'm the one shooting at myself like a criminal  
I'm a Florida but I'm something like a Seminole  
I'm a game no man I ain't talkin' 'bout your dinner bro  
That's just the start of it!  
Don't let my family part of it  
Influence is true 'need in these cuff scar your wrist  
I don't think my heart's in it  
It won't get better later  
I'm sorry man I had to let you down  
Like an elevator.

No I'm gone, I'm through  
I can't get with you.  
No I'm gone, I'm through  
I can't get with you.  
No I'm gone, I'm through  
I can't get with you.  
No I can't get with you.

[Verse 2:]

Pain in my stomach turning  
Pressure got my heart burnin  
Weird cause the boy be  
Like it doesn't feel as urgent  
I remember hazy nights  
Bass bumpin head thumpin  
We extreme goin off the deep end  
Bungee jumpin  
But the pleasure that I got from that  
Is feelin like a coffin  
That I feel trapped in  
Till He came and bought me back  
Christ entered in  
No more me trying to be you  
He then more now  
I'm trying to help you, see you  
Evil like a serpent  
You don't see it, but it's certain  
Chasin cars with partitions  
In they end they still curtains
