

# A Million Years

Teddy Geiger

Caught up in what's in  
Caught up in the things that everyone wants  
Caught up in what's out  
Caught up in the things that you could do without  
Well what if I was one of them  
And so I will say

If I lived for a million years  
I would be right there to catch your tears  
Will you get over it this time  
Or is this the last time

On this night we breathe air  
What makes it so different  
What makes you not care  
Well I wish that we could be the same  
And I wish that you could give up this game  
Don't want to be one of them  
So I will say

If I lived for a million years  
I would be right there to catch your tears  
Will you get over it this time  
Or is this the last time

Will you say goodbye before you leave  
Will you say goodnight  
just one more time please  
Will you call my phone out of regret  
And will you love again  
With other than me, Other than me  
And will you speak of me with other than me  
And will you remember me  
And will you remember me  
Will you remember me

If I lived for a million years  
I would be right there to catch your tears  
Will you get over it this time  
Or is this the last time

Is this the last time  
Oh, is this the last time, my dear  
Oh, is this the last time  
Yeah, is this the last time my, dear  
Oh, is this the last time  
Is this the last time, my dear  
Is this the last time I  
think it's the last time for us
