Better Now

Teddy Geiger

You've been driving down Down to Buffalo Like you don't care no more And it's aright If you tell me before you're gone I asked you to your face You weren't listening You say it's nothing but Now you won't call We can't talk anymore

You found someone else I thought you never would I can't say that I like it better now Yes, you found someone else I thought you never would I can't say that I like it better now

Do you remember when Oh, the sun would rise Through your window And I'd be waiting to say hello Good morning Oh and I was spoken so soft spoken But you helped me out Now were falling Never to be heard about

Yes, you found someone else I thought you never would I can't say that I like it better now Yes, you found someone else I thought you never would I can't say that I like it better now I don't like it better now I don't like it better now I don't like it better now
