

# Chemistry

Teddy Geiger

Is there where it ends?  
Why couldn't I give in?  
'Til I find you back with me  
Beneath our walls is chemistry  
And if it weren't for yesterday  
Would you still believe in me?

I'm begging for your reasoning  
Did you love me anyway  
If it weren't for yesterday  
Would you still believe in me?

Doesn't she fail  
Doesn't she falter  
When I'm not around  
She makes me feel like falling down

Doesn't she fail or falter  
When she calls my name  
And I'm not there to ease the pain
