

Chemistry

Teddy Geiger

Is there where it ends?
Why couldn't I give in?
'Til I find you back with me
Beneath our walls is chemistry
And if it weren't for yesterday
Would you still believe in me?

I'm begging for your reasoning
Did you love me anyway
If it weren't for yesterday
Would you still believe in me?

Doesn't she fail
Doesn't she falter
When I'm not around
She makes me feel like falling down

Doesn't she fail or falter
When she calls my name
And I'm not there to ease the pain
