

Fall Anyway

Teddy Geiger

Something special, something strange
When you look at me that way
I can feel it

Though it's rushing through my veins
I just don't know how to say what I'm feeling

You take me high, you take me low
So I fall a little more
And I let myself fall anyway
Will you go, will you go
Though your heart scares you so
And just let yourself fall anyway

When you're hiding where we sleep
Where our dreams become our dreams
I can feel it

Could you tell me anything?
Could you teach me how to speak?
What I'm feeling?

You take me high, you take me low
So I fall a little more
And I let myself fall anyway
Will you go, will you go
Though your heart scares you so
And just let yourself fall anyway
