

Get You

Teddy Geiger

I build a ladder to the stars for just us two
Anything that you could want, I'll give to you
Well life's too short to let one moment pass me by
Saying nothing, I've been waiting, wasting time
I'm undoing it for you

I've got my eye on you
I'm doing whatever it takes, whatever it takes
To get you

I've got my eye on you
I'll do whatever it takes to
Get you

I have since so long
I won't, I can't, no way
Now I feel as though I've lost 100 days
Now I know that it hurts more to stay afraid
I'm learning how to turn around and face the day
And I'm doing it for you

I've got my eye on you
I'm doing whatever it takes, whatever it takes to get you
I've got my eye on you
I'll do whatever it takes to get you
I've got my eye on you
I'll do whatever it takes, whatever it takes to get you
I've got my eye on you
I'll do whatever it takes to get you
