Great Escape

Teddy Geiger

You promised me You'd always be around To pick me up When I run down To help me When my day is busted But there's no one now Who can be trusted

Are you ever coming back Or is nothing built to last Isn't it something how You vanished in the haze Isn't it something how You left me in your way When you made Your great escape

I always though You'd always be around But I'm the fool Who thought You'd never let me down

Were you trapped Inside a cage Planning your get away Isn't it something how You vanished in the haze Isn't it something how You left me in your way When you made Your great escape When you made Your great escape When you made Your great escape
