

First thing I remember
I was standing in my apartment
Saying where do I go from here?
Next thing I recall
Didn't matter much at all
Well I said what's wrong with being here?

And every day's another chance to take a leap of faith

Well now jump
Love is not [?] if you fall
Baby I've been waiting
And I'm falling for you more and more
So jump
And I'll be there to catch you if you fall
Baby I've been waiting
And I'm falling for you more and more so

What's the point of faith
If i keep it locked inside a safe
Oh, that can't be fun at all

And every day's another chance to take a leap of faith

Well now jump
Love is not [?] if you fall
Baby I've been waiting
And I'm falling for you more and more
So jump
And I'll be there to catch you if you fall
Baby I've been waiting
And I'm falling for you more and more so

If you don't believe me
Why don't you ask your friends
Why don't you ask your friends

Oh! Why don't you jump
And say what's in my brain
I love you, oh
I love you
Oh and we all have something we used
To find truth, to find truth

Well now jump
Love is not [?] if you fall
Baby I've been waiting
And I'm falling for you more and more
So jump
And I'll be there to catch you if you fall
baby I've been waiting
and i'm falling for you more and more so
JUMP!!
