

Sunshine Fires

Teddy Geiger

Sunshine fires her first shot
And I like that feeling a lot
Tends to make me smile
And I pull myself out of bed
Put some clothes up over my head
Then I pull the door

This is how it begins
So simple but it ends so wrong
Cause when you're gone
It's like God put out the sun
My mind wonders
I get nervous bout the ones I love
Cause when you're gone
It's like God put out the sun
Cause when you're gone
It's like God put out the sun

Do you feel the same way too?
I've been thinking a lot about you
And I'd love to know
Slowly morning feels like midnight
I'm paralyzed
And it's dark in my head
Could you send some light my way?

This is how it begins
So simple but it ends so wrong
Cause when you're gone
It's like God put out the sun
My mind wonders
I get nervous bout the one I love
Cause when you're gone
It's like God put out the sun
Cause when you're gone
It's like God put out the sun
Mmm, the sun

This is how it begins
So simple
You're where I belong
But when you're gone
It's like God put out the sun
Oh, my mind wonders
I get nervous bout the one I love
And when you're gone
It's like God put out the sun
When you're gone
It's like God put out the sun
