

# Sweeter Than The Truth

Teddy Geiger

I broke down and let them save you, oh  
And the car pulled out the driveway  
Wave goodbye it's been so long  
You took that medicine they gave ya, oh  
Are you feeling any better  
Cause it's looking like you aren't  
Since they took you away

I've been thinking and I've got a lot to say

I brought a picture of us  
Do you remember when we used to get together  
Hold hands and say forever baby  
How could we get back to that place  
I said I didn't but I really missed ya  
All the things in my life  
Every one of them reminds me of you  
We'll never get back  
These memories and photographs  
Maybe it's just better I remember these pictures  
So much sweeter than the truth

Without you anger's lost its flavor, oh  
No more yelling, no more fighting  
So I leave the TV on  
With no pay per view or cable  
Sings as sweetly as my baby  
Oh I miss it every day  
Since they took you away

I've been waiting just to hear you say my name

I brought a picture of us  
Do you remember when we used to get together  
Hold hands and say forever baby  
How could we get back to that place  
I said I didn't but I really missed ya  
All the things in my life  
Every one of them reminds me of you  
We'll never get back  
These memories and photographs  
Maybe it's just better I remember these pictures  
So much sweeter than the truth

So many nights  
So many days awake  
And I thought life without you would be easy living  
I brought a picture of us  
Do you remember when we used to get together  
Hold hands and say forever baby  
How could we get back to that place, oh  
I said I didn't but I really missed ya  
All the things in my life  
Every one of them reminds me of you  
We'll never get back  
These memories and photographs  
Maybe it's just better I remember these pictures

So much sweeter than the truth
