

# Talking And Sleepless

Teddy Geiger

I'm not sure what you're thinking, at the door  
And I got ice in my veins  
I ask you to stay  
So you stare, think about it  
Will you dare, is this the end of the night  
Or the start of something wonderful

I know how this looks, okay  
But you know how you feel

If you don't fight the feeling  
Let go and believing  
Fall in love  
We could spend the evening talking and sleepless  
If you don't fight the feeling  
Fall in love  
We could spend the evening talking and sleepless

You know it's late and I'm tired  
I'd love to stay, why don't you say what you mean  
But you're caught in the scene  
Honey pie, you're really something neat  
You're something else  
I want to get into your head  
Oh I swear it's all I want

I know how this looks okay  
But you know how you feel  
If you don't fight the feeling  
Let go and believing  
Fall in love  
We could spend the evening talking and sleepless  
If you don't fight the feeling  
fall in love  
we could spend the evening talking and sleepless

We'll run our mouths until it's light out

If you don't fight the feeling  
Let go and believing  
Fall in love  
We could spend the evening talking and sleepless  
If you don't fight the feeling  
Fall in love  
We could spend the evening talking and sleepless  
if you don't fight the feeling  
Fall in love  
We could spend the evening talking and sleepless  
If you don't fight the feeling  
Fall in love  
We could spend the evening talking and sleepless
