

# The March

Teddy Geiger

You said goodbye  
we will start a new adventure  
No one to help us  
We'll get by  
We'll keep on marching  
I don't wanna hurt you  
But I know it's what I'm going to do  
'Cause I don't love you  
And it hurts to think it  
So time for the truth now  
It's for the best  
Even though it tastes bitter  
I'm not gonna miss this  
I know its odd  
We're parting ways so soon  
No explanation  
Just letting you know  
That you're never gonna get one  
From me or anybody else

So march forwards  
And never look behind  
So march  
And never look behind  
No, never look...

Oh I'm not looking  
I'm terrified to open up my eyes  
See what I've become  
A soulless fool just running in circles  
Back to my own head  
Disconnected from the things that keep me sane.  
Don't know how to let go  
Why can I let go?

So just march forwards  
And never look behind

These feelings all will pass with time  
Just close your eyes  
And march forwards  
And never look behind  
These feelings all will pass with time  
Just close your eyes  
And march
