

# Thinking Underage

Teddy Geiger

So soon to say it's over  
Let's see what happens later on  
I'm 16, my world just opened wide  
I've got a pocket full of change  
I'm tired of thinking underage  
Just cut this string and let me fly  
Say goodbye, say goodbye

Forgive me mom and dad  
If the music makes you sad  
Nothing can prepare us for the day  
When little boys grow old  
And don't do as they're told  
I will find my way  
I'm just tired of thinking underage,  
Tired of thinking underage,  
I'm not thinking underage anymore

I'm first in line at the DMV  
I'll sweet talk you, just give me the keys  
I don't have a curfew in my mind  
Little Katie and me like Rolling Stones  
She keeps me still by letting go  
It's not like we're running out of time  
Cause you will find, yeah you will find

Just like gravity, the ups and downs  
Will always be ok with me  
I am over all that underage can be...

(Forgive me mom and dad)  
I'm not thinking underage anymore (If the music makes you sad)  
I'm not on that page anymore, no  
I'm not thinking underage anymore
