

Walking In The Sun

Teddy Geiger

Walking In The Sun

I can't let go when the truth gets hard to swallow
Chasing after romance in the back of my mind
If we spend enough time looking for a way out
We'll be wandering and thirsty all our lives
Always asking the same question every time

Oh, show me how to love
Walking in the sun
Now's the only chance we will ever know
Walking in the sun, learning as we go

Like a kid again
It was easy just to let the time fly
Let's forget our tired war
I'm reaching for your honesty tonight
Until the sun comes up

You'd show me how to love
Walking in the sun
Now's the only chance we will ever know
Walking in the sun, learning as we go

Now, I won't run if you don't fight
Let me show you what's outside
These walls we built
The stories left to die

A place alive and unafraid
Where we are free to dream
A place where no cloud can obscure the sun

You'd show me how to love
Walking in the sun
'Cause if we never warm our hearts
How will we learn to see beyond the world?
We'll show 'em - with love

Show me how to love, yeah
Walking in the sun
Now's the time, our only chance
We have to go
Walking in the sun
