

# Cold, Cold World

Teddy Pendergrass

From one friend to another,  
It seems that something being bothering you?  
If you got a minute maybe there something I can say or do.  
See, I realize life has it changes  
Lot of changes, some times it seems  
things just don't go right,  
But there's one thing I want you to think  
About as you lie on your bed tonight.

When the whole world seems against you  
And your whole life seems unborn  
And all you ever wanted was a little peace  
I could understand just how you feel  
But a little bit of peace of mind  
Nowadays is so hard to find  
And you can't even find it in your sleep  
Here some advise I think you should keep  
So I'm telling you

Don't let this cold world get you down  
Don't let this cold world (Be Strong Hold On)  
Get you down, get you down (don't let it get you down)  
Cold, cold world, get you down  
Cold, cold world, get you down

Listen  
Dry your eyes, don't cry no more  
What do you think a friend is here for?  
There's always something we can do me & you  
If things don't always go your way  
You've got to prepare yourself each and every day  
Oh, the changes that life will put you through

[Repeat sing-along]

[Bridge]

I wonder whatever happened to  
The happy song that I once know  
You can't let nothing bother you ever bother you  
Bother', bother' ever worry you

[Repeat sing-along]

Hold on be strong  
I know that for some folks  
Life comes easy and for others it comes hard  
Some folks to keep on trying while others just get tried  
I need to share the things I learn
