Come Go With Me

Come on and go with me Come on over to my place

I don't feel like bein' lonely tonight You see, I want, I want some company And you look like you're just my type You're the kind, you're the kind Whose spirits are runnin' free

Let's take a sip of some cold, cold wine And dance to the music nice and slow And you won't be under any kind of pressure You see, we'll just let, we'll just let the evenin' flow

Come on and go with me I'd sure like that, baby Come on over to my place It would be so nice, it would be so good Come on and go with me Come on over to my place

You look like you're just bored to death And you wanna get away You wanna get away from this noisy crowd Let's go where it's nice and quiet Where there's nobody, there's nobody else around

Let's sit by a cozy lit fire And we can be in each other's company Now how does that sound to you? You see, 'cause it sounds so good It sounds so good to me

Come on and go with me Would you do that, baby? Come on over to my place Would you do that, baby? Would you do that, baby? Come on and go with me Come on over to my place

My car's right outside, we can leave right now That's if you're ready to go I know you're just beatin' me You see, I'd understand it I'd understand it if you said no But don't you do it, baby

Come on and go with me, come on, baby (No) Come on over to my place (No, not tonight, no) You see it's not far from here (I believe you)

Would you just take a minute and think about it? (Oh, man)

Would you just think about it, think about it? Yeah (I'm thinkin' about it but I really have to say no)

Come on and go with me Come on over to my place (No, I know) You're sittin' here, you've been sittin' here for quite a long time (Yeah, I'm slightly bored, I hate bein' bored)

See, I've been watchin' you
(I've been doin' the same thing)
I've had my eyes on you
(I've been checkin' you out all night long)
You look so nice and you look so sweet
(Oh, thank you)

Come on and go with me (That was sweet) You look like you oughta be with me Come on, over to my place (Yeah, but what are you gonna with me? That's the problem)

Seems that you feel the same way I do (I think it would pretty interesting) It seems that you need some company, too (Oh, boy) Yeah

Come on and go with me (You said your car is right outside, right in front) Come on, over to my place (And you're gonna bring me home after) But would it be all right with you?

Come on and go with me If we left here and we went somewhere else, baby (Come on over to my place) Somewhere where it's nice and quiet, nice and quiet (That's nice, yeah, that sounds a little better than this place) Where we could sit down by a cozy lit fire We could sip a little wine, work things out (Oh, yeah)

Come on and go with me, work things out (Well, I cannot stay long) Come on over to my place (We got an hour, no more than that) Lady, you won't be under any kinda pressure (Please, I cannot stand pressure)

I wouldn't do that, baby? No (Okay, well, would you get my coat?) See, I wouldn't do that, baby See, I just wanna sit down And get to know you a little better (Okay, just for a little while)

I swear you look so good to me (Are you gonna pay for my drink?) Come on over to my place You look so good to me
