

# I'll Never See Heaven Again

Teddy Pendergrass

Oh love,  
I'll never find the words on my own  
This loneliness won't leave me alone  
Oh yeah, alone

Since you been gone  
I've traveled 'round this world with a song  
Searchin' for the right and the wrong  
I'm still alone

Now I know baby  
I'll never see heaven again, Oh no  
Now I know baby  
I'll never see heaven again, Oh no  
No more

Dreams  
Are made for those who wish on a star  
Like boys who dream of landing on Mars  
They never go

I must have lost  
The feeling that you're never alone  
Somewhere along the way I went wrong  
It's been so long

Now I know baby  
I'll never see heaven again, Oh no  
Now I know baby  
Never see heaven again, Oh no  
No more

Without your sweet love baby  
I'll never see heaven again, Oh no  
See I need you right here beside me  
Never, never see it again  
No more  
Baby, I'll never see heaven again  
See I need you by my side  
Never see heaven again Oh no  
No more  
I'll never see heaven again Oh no  
Now I know baby  
I'll never see it again, no no  
Without your sweet love baby  
I'll never see heaven again Oh no  
See I need you here beside me  
See I'll never never  
Never never never never never never never  
I'll never see heaven again no no  
See I'll never, I'll never  
I'll never see it again, no no  
Without your sweet love babe  
Without your goodness  
Without you right here beside me
