Everybody Move It

Teddy Thompson

Sat in the corner you could pass for dead Get up on the floor shake your head

Everybody move it Everybody move it

If you'd rather be home you can leave right now This is a party no frowns allowed

Everybody move it Everybody move it

Bump and grind, have a good time Free yourself and lose your mind Now the party's pumpin and the groove is on Grab the nearest body and move along Go to the next if it don't feel right But have no fear, get down tonight

Everybody move it Everybody move it

Bump and grind, have a good time Free yourself and lose your mind

Everybody move it
