I Wish It Was Over

Teddy Thompson

I wish it was over
I wish we were through
I wish when my phone rang
It wasn't always you

I don't even like you Or can't you tell Whenever I'm sober I treat you like hell

I wish it was over I wish it was over I wish it was over

If I could be stronger And not so weak Instead of just thinking Maybe I could speak

I don't think you're special You're certainly not smart This being together Is tearing me apart

I wish it was over I wish it was over I wish it was over

I wish it was over
