Shine So Bright

Teddy Thompson

I wanna be a huge star That hangs out in hotel bars I wanna wake up at noon In somebody else's room

I wanna shine so bright it hurts

I wanna be death bed thin Never realize the state I'm in With my head in the clouds And be followed around by crowds

I wanna shine so bright it hurts I wanna be high strung Make people wonder what they've done No one will talk back Cause you'll never know When it might snap

I wanna shine so bright it hurts I wanna shine so bright it hurts I wanna shine so bright it hurts
