

# All That I Need

Tedeschi Trucks Band

You've given me faith  
But love isn't fearful  
You found the words  
That I couldn't say  
You touched my hand when I walked away  
Just when I thought you were gone  
You came back, back in my life like a song

You, you're all I want  
And all that I need  
Time's wasting away  
I'm down on my knees  
Love is all we need be

Another day feeling sorrow  
There's nothing to lose  
There's always tomorrow  
And with this hand in here  
I found my way  
Just when I thought you were gone  
You came back, back in my life like a song

You, you're all I want  
And all that I need  
And when you smile  
Smile with your heart  
It's plain to see

From the brother which we passed  
I can see it clear as glass  
There is eternity  
In the things we cannot see  
For the answer lies  
Within a simple grain of sand

Just when I thought you were gone  
You came back, back in my life like a song

You, you're all I want  
And all that I need  
Time's wasting away  
I'm down on my knees  
Time's wasting away  
And when you smile  
Smile with your heart  
It's plain to see
