I think nothing's gonna be no fairytale  
Just remember what my momma always said  
When in time you're troubled you melt down and break  
Give you [?] so you can hold your head!  
Bell, one more time  
When you feel like you just can't go on in life  
Soon, soon  
It will pass you by (It will pass you by)  
Just another loop from the roller coaster ride  
These are the SECRETS OF LIFE, Alright!  
These are the things that get, that get you by

No hold back all the tears  
Wondering how you made it through all these years  
No one ever told me it will be easy,  
But I found all the strength I need in your LOVE!  
Bell, one more time  
When another one is gonna break your heart  
Soon, soon it will pass you by  
It's just another lesson learn along your path  
These are all the SECRETS OF LIFE  
Alright!  
These are the things that get, that get you by, gonna get you by

Cause life's an after party and love's a sweet champagne  
Yeah, get your money  
Don't forget why you came and who you are  
Love your haters more,  
'Cause baby you're a star - baby you're a star!  
Don't need!

These are all the SECRETS OF LIFE  
Alright!  
These are the things that get, the things that get  
That get you by
