(Woo woo woo)
You're so beautiful to me
I can't stop thinkin' about you
This is how I feel about you
OK baby, come on

Our eyes lock and we smile at each other
My heart is racing, feels like I'll go crazy
Just like bubbles bursting
Our love is beautiful
Will you kiss me with your sweet lips?

On my way back from taking you home
I remember our kiss and I stop in place
I call you on the phone and ask if you could come out again
I miss you so much, I'm sorry for saying nonsense this late at night

Our date, a love date
When we do it once, I want to do it again
Today is a beautiful day
Let's share love every night
Day or night, without anyone knowing
Today is a beautiful day

Hey me sweet, you're so sweet
I can't quit you, I love it when you're in my arms
I get surprised by seeing you open your eyes every day
Because you look like fairy
In case you fly away, in case I awake if this is a dream
Every single day, I am careful
But I like myself like this

On my way back from taking you home
I remember our kiss and I stop in place
I call you on the phone and ask if you could come out again
I miss you so much, I'm sorry for saying nonsense this late at night

Come here, baby kiss me darling
I like everything about you
Even you crying, even you getting angry
How can you be so pretty?
When I see you, a day seems like a minute
I always want to be with you, all day, oh yeah

(Woo woo woo)
You're so beautiful to me
I can't stop thinkin' about you
This is how i feel about you
Ok baby, come on
