

# Climb The Walls

Teena Marie

Here we go again  
On the smooth tip  
You and I

Once upon a time I was in pain  
And blue was the color of my love's flame  
So majestic, yet electric you  
Sent a current through me, made my life brand new  
Oh, you can have it all  
But how you're gonna act this time when my love calls  
Gonna spin the record "You Sure Love To Ball"  
All I wanna do is make you climb the walls, baby

Hold me tight, I'll keep you safe and warm  
And all that I am is your quiet storm  
Young light, spring time, deep like fantasy  
Softer than a zephyr breeze, you play on me  
Oh, anytime you call  
I'll come runnin', baby, give my all and all  
Gonna play the favorite "I Sure Love To Ball"  
Even if it means you make me climb the walls, baby

Sugar, I've been missing you  
Miss all the times we shared  
I'm never quite the same when you're not there  
People come into my home  
To give me love while I'm alone  
But they'll never do 'cause I can't be true  
Look at me, baby, I'm so into you

I just love you, that's all  
I got my mind made up, baby  
How you gonna act this time  
Baby, when my love calls  
Are we gonna get this thing together  
Come on, can we climb the walls  
Come on, can we climb the walls together  
Lay down our love forever  
Can we climb the walls, climb the walls, climb the walls

Come on, baby  
Do you hear me  
Do you hear me climbing, oh  
Said I love you, baby, got to have your lovin'  
Won't you come on, come on  
Come on, won't you  
Climb... the walls
