

It Must Be Magic

Teena Marie

Hee

(You are under my power)

(It is the power of love)

Oh, oh, oh, oh, oh, oh, oh, oh, oh

Oh, oh, oh, oh, oh, oh, oh, oh, oh

You say my kisses taste like magic, well, stop

That's got to be the classic line

Please no more presto change-o

Now that I'm in love, baby, 'cause that would really blow my mind

I'd pull a rabbit out of my hat

Or cross a black cat's path to find you

And darling, you can best believe

There's nothing up my sleeve but love

It must be magic

(It must be magic)

It must be magic

(It must be magic)

It must be magic, got me under your spell

It must be magic, oh, baby

(It must be magic)

It must be magic

(It must be magic)

Ooh, you got me tiltin' just like a pinball machine

Keep workin' my love, such a magical feeling

You got me tiltin' just like a pinball machine

And I love it, love it, love it

(Tilt me)

It must be magic, baby

'Cause it feels so good

It must be magic, baby

'Cause it feels so good

Oh, oh, oh, oh, oh, oh, oh, oh, oh

It must be magic, baby

'Cause it feels so good

Oh, oh, oh, oh, oh, oh, oh, oh, oh

It must be magic, baby

'Cause it feels so good

You say, you know I've got the potion, well, stop

No baby, don't stop, don't you dare

(Don't you stop it, baby, don't you dare)

Aladdin, Houdini and Merlin, the magician

To you they never could compare

I see no long black flowing cape

Yet still, I can't escape those two eyes

(When I look in your eyes)

And we don't need no crystal ball

'Cause we have said it all in love

It must be magic
(It must be magic)
It must be magic
(It must be magic)

It must be magic, got me under your spell
It must be magic, oh, baby
(It must be magic)
It must be magic
(It must be magic)

Ooh, you got me tiltin' just like a pinball machine
Keep workin' my love, such a magical feeling
You got me tiltin' just like a pinball machine
And I love it, love it, love it
I can't get enough of it, of it, no, no, no, whoa

It must be magic
(It must be magic)
It must be magic
(It must be magic)

It must be magic, got me under your spell, baby
(it must be magic)
It must be magic, oh, baby
(It must be magic)
It must be magic, our good fortune, I can tell, baby
(It must be magic)

It must be magic
'Cause it feels so good to me
It must be magic
Got me love, got me loving you

It must be magic
'Cause it feels so good to me
It must be magic
Got me love, got me loving you

Teena went to wonderland, the plot is getting thick
(Ooh, magic)
Met the king of Punk Funk and he taught her all the tricks
She feels the heat, there's magic in her feet
Now she's groovin', always movin' to the funky beat

Under your spell, ooh, it must be magic
Under your spell, what is it, what is it?
Under your spell, ooh, it must be magic
What is it, what is it, what is it, what is it?

It must be magic
'Cause it feels so good to me
It must be magic
Got me under your spell, baby

It must be magic
'Cause it feels so good to me
It must be magic
Our good fortune I can tell, baby

It must be magic
We're gonna take it to the top
It must be magic

Don't you let the magic stop

It must be magic
Got me love, got me loving you
Got me love, got me loving you
Got me love, got me loving you

It must be magic
'Cause it feels so good to me
It must be magic
Got me under your spell, baby

It must be magic
'Cause it feels so good to me
It must be magic
Temptations, sing

Oh, oh, oh, oh, oh, oh, oh, oh, oh
It must be magic
Oh, oh, oh, oh, oh, oh, oh, oh, oh
It must be magic

Oh, oh, oh, oh, oh, oh, oh, oh, oh
Baby must be a magician 'cause he's sure got the magic touch
Oh, oh, oh, oh, oh, oh, oh, oh, oh
It must be magic
Oh, oh, oh, oh, oh, oh, oh, oh, oh
My baby must be a magician 'cause he's sure got the magic touch
