

# Love Me Down Easy

Teena Marie

Love me down easy and then say good-bye  
Love me down easy and I'll try not to cry  
Even if it means I have to wait until my next life  
I don't care it's just something to do

Like the petals of five dozen roses with white chocolate  
And champagne in bed that's how I think of you  
'Cause you're sweeter than the taste of a cherry so rare  
When you love me-love me-love me down easy

Love me down easy and then savor each kiss  
Love me down easy for it's you that I miss  
Even if it means I have to wait beside my telephone  
When all the while I know it might not ring

Call it foolish I think not-for false pride is a sin and baby  
You know that you've been my everything  
'Cause you're sweeter than the taste of a cherry so rare  
When you love-love me-love me down easy  
I think it's time for you to call my name

Don't say a word darling  
There's no need to explain  
'Cause you're sweeter than the taste  
Of a cherry so rare

And no matter where you are just call my name  
Say the words darling and I'll be there  
You turn my head around  
Oh when you love me down easy baby easy lover  
Baby baby baby love-easy-easy
