

# Luv Letter

Teena Marie

Music is meant to inspire  
To elevate you and to take you higher  
Like the prophets spoke words to my soul  
Letters of love like silver and gold

Sign myself to you forever  
(Oooh oooh oooh, oooh oooh, oooh oooh)  
Sign myself to you forever  
(Oooh oooh oooh, oooh oooh, oooh oooh)

You came to my rescue baby and I'm a sign myself to you  
Back it up for you, I'm a write that down for you  
I know you've heard about me and what the people say is true  
The way I mix my metaphors, the way I do just what I do

I'm a love letter baby  
Sign myself to you  
Sign myself to you baby  
Just sign myself to you  
I'm a love letter baby  
Might just make you cry  
Don't let my smoke get in your eyes

I ain't saying nothing baby, ain't been said before  
If all in life is vanity, I'm gonna even up the score  
This one's for my music, the pretty notes each melody  
This one's for the many blessings living inside of me

I'm a love letter baby  
Might just make you cry  
Don't let my smoke get in your eyes  
I'm a love letter baby  
Put you right to sleep  
Read it and weep baby  
Read it and weep

Read my eyes baby, my eyes won't ever lie  
Read my lips, my lips gonna want to testify  
Read my heart, gonna cross my heart and hope to die  
Read me I'm your love letter, might just make you cry

Signed, sealed, delivered  
I'm yours baby, I'm yours baby  
Signed, sealed, delivered  
I'm yours baby, sincerely yours baby

It's going down so eloquently, I'm gonna set the mood sublime  
Speak your name like perfume, give you all my love in time  
With all sensitivity, how can I express to you  
Call me artful when I dodge, spittin' good game to you

I'm a love letter baby  
Make your fever rise  
Don't let my smoke get in your eyes  
Said I'm a love letter baby  
Put you right to sleep  
Just read it and weep baby

Just read it and weep

Said I'm a love letter baby  
Sign myself to you  
Sign myself to you baby  
Just sign myself to you  
I'm gonna sign myself to you baby  
Just sign myself to you

Signed, sealed, delivered  
I'm yours baby, I'm yours baby  
Signed, sealed, delivered  
I'm yours baby, sincerely yours baby

Sign myself to you forever  
(Oooh oooh oooh, oooh oooh, oooh oooh)  
Sign myself to you forever  
(Oooh oooh oooh, oooh oooh, oooh oooh)

Please Mr Postman  
Deliver me, deliver me, deliver me  
Please Mr Postman  
Deliver me, deliver me, deliver me

Sign myself to you forever
