

## Passion Play

Teena Marie

I've loved you from a distance  
A mighty long long time baby  
I've secretly absorbed you  
Mentally explored you  
Sexually imagined what you'd be like baby  
Late at night I've acted out the fantasy  
Of what it would be like to hold you close to me  
Dramatizing every move - it's scandalous  
The things we'd like to do - just us

Stay awhile why don't you stay and play  
And let me make - I've got to make -  
I want to make a passion play  
Play while - my darling stay awhile -  
I'm gonna bust a move on you  
I want to make - just let me make a passion play  
Awhile - darling stay awhile -  
You know I know just what to do

We'll do it so discreetly  
And no one has to know - say yes oh please  
Cause I have a deep affection  
A bitter sweet collection  
A pleasure chest of treasures that I've save for you  
I've acted out each passion play they thrill me so  
Sometimes I get so caught up that I can't let go  
Dramatizing every move is paradise  
The things we like to do is the fire and ice

Play awhile ooh my darling stay awhile  
I don't know what to do  
I'm so in love with you  
Stay awhile ooh my darling play awhile  
Make a passion play - stay

Shake it on up - shake it on down - shake it on up  
Shake it on up - shake it on down - shake it on up
