

# Sweet On You

Teena Marie

My sugar doesn't know I'm sweet on you  
He wouldn't understand he thinks that he's the man  
You came along and my heart burst into flames  
I choked up on the smoke that tightened up my stroke  
I'm tired of talking to you late nights on the phone  
I want to be there for you when you're all alone  
I need something I can hold onto baby baby  
Can you help me-  
I am sweet on you  
Sweeter than honey sweeter than money  
Sweeter on You-baby baby you know I'm  
Sweeter the lickin' the sweeter the kissin'  
Just like an applestick  
Sweeter than fly the sweeter we lie  
The sweeter the flow the sweeter the Yo Yo -  
My name is Lady Tee  
My love is sticky sweet just like a sloe gin fizz  
Let's call this song exactly what it T-I-is  
The bottom line is that you make my nature rise  
Just like a lead balloon  
You know you hit my heart-BOOM!  
I'm loving you like apple pie up in the sky  
I've tried to play you off that's too much like a lie  
It just gets larger in my head oh baby, baby  
Can you handle it-you made it what it is, I'm  
The sweeter the smooth the sweeter the groove  
Sweet P and Honey G-I'm sweet on you  
The sweeter the breakin' the sweeter the makin'  
Like momma's peach cobbler-I'm sweet on you  
The sweeter the rhyme the sweeter the grind  
Like R&B - I'm sweet on you  
The sweeter the lust the sweeter the trust  
I'm honey on a stick-I'm sweet on you  
The sweeter I'm knockin' the sweeter I'm clockin'  
I love my chocolate-yes I'm sweet on you  
The sweeter the flavor the sweeter the savor  
As sweet as candy hey- sweet on you  
Sweet as can be, but not sweeter than Lady T  
Just like vanilla child - sweet on you  
The sweeter the flow the sweeter the YoYo  
My name is Lady Tee  
Right now and how-  
Your gonna love me right here  
In the inner city  
With all the madness in the streets  
We might as well just rock this beat  
Baby all night-up tight-out-a-sight  
Flow baby flow baby flow  
Flow baby flow baby flow  
Flow baby flow baby flow  
Flow Yo flow Yo

It's a shame the way you got me lovin' you  
Got me feeling all these feelings that I'm feeling for you  
Should I tell him or should I let him keep on thinkin'  
That I'm true, but deep inside I'm sweet on you  
Baby I can't hide it for too long

My lovin' is too strong for you to steer me wrong  
What's going on?  
Late night creeping got me sneakin' for a snack  
Don't hold back my little sugar smack  
Teena want all of that

Like paradise your little slice of heaven  
I'm gonna' roll-em 4 U 7 come 11  
Money's on the table  
Yeah, I can make it happen  
Sing just like a bird, then I start to rappin'  
"Quote- thru the fire 2 the limit- 2 the wall  
4 a chance 2 be with U I gladly risk it all"  
All right down to the real nitty gritty  
So pet me papa, I'll purr just like a kitty

Meow, meow- pet me papa- hey I'll purr just like a kitty  
With all the sadness in the street we might as well  
Just rock this beat, baby all night, up tight, out a sight  
Baby is it you - could U B the 1 2 do the do  
I said baby, is it U - could U B the 1 2 do the do
