

# The Long Play

Teena Marie

Good evening  
This W-H-E-V-N  
My co-letters on the Love Program  
Broadcasting to you from a heavenless station  
I'm a make it hot, yes  
It's a sexy situation  
I'm dropping lyrics on you, lover  
Underneath the covers  
And what better way than to prologue the passion?  
Baby it's the foreplay, make you mine for the asking  
I'm giving 360 degrees of the Lady T smoothe  
Tentalatting black ivory keys  
Like JB, ain't that a groove?  
Legendary Players  
Got you loving me madly  
As I'm walking out the door  
You wanna meet my daddy  
Curled up in a corner  
Sucking your thumb  
I'm giving you The Long Play  
Turning you on  
And uh

Pillow from my lips like honey  
Got you listening to me faithfully  
Do my fannies just like easy money  
Just like liquid cash, baby

I've been setting up shop, got you all in  
Spilling like a drop top Benz and  
Sexy jompy, blazin to the max  
We're kissing racks like a cardiac

(Give me the long play)  
Drop it on me baby, that's my song  
(Give me the long play)  
Put me on repeat and I go on mm mm  
(Give me the long play)  
Dial it in and we can go all night  
(Give me the long play)  
We won't stop until the morning light

Turn the radio up and dig my flavor  
It's going down like a quiet storm  
I know your sweet spot and I can't even fade you anymore  
You've been digging my cells like fine wine  
Cruising all up and down my close line  
All your treasures I'm about to explore  
Mon Cherie, some wild amour

(Give me the long play)  
Drop it on me baby, that's my song  
(Give me the long play)  
Put me on repeat and I go on  
(Give me the long play)  
'Cause we gon make it last forever  
Don't wanna wait no more, just open up the door

And give me the long play

Darling

Just for me and my baby

'Cause it seems like a mighty long time and my love's coming down

May I introduce you to my little friend?

She's my secret weapon and

Hear me talkin baby, what I say?

I'm bout to put you on the long play

The long play, the long play

Uh daddy

(Give it to me daddy)

Things you do and I'm next to you

(On the long play)

On the long play

(Give me the long play)

'Cause we gon make it last forever

Don't wanna wait no more, just open up the door

And give me the long, give me the long, give me the long play

Darling

Just for me and my baby

'Cause it seems like a mighty long time and my love's coming down

May I introduce you to my little friend?

She's my secret weapon and

Hear me talkin baby, what I say?

I'm bout to put you on the long play

The long play, the long play

(Give me the long play)

Drop it on me baby, that's my song

(Give me the long play)

Put me on repeat and I go on

(Give me the long play)

'Cause we gon make it last forever

Don't wanna wait no more, just open up the door

And give me the long play
