

# We've Got To Stop (Meeting Like This)

Teena Marie

You know, baby  
We go back a long way  
But it hasn't always been easy  
You know  
I mean, you living on the east coast  
And me living on the west coast  
It's tearing me apart  
We've got to stop meeting like this

Try to understand  
When I say how much I care  
It hurts me so inside each time we say goodbye  
And it's so unfair

And I've cried, yes, I've cried  
As I face my calendar  
I mark red Xs off and with each tear that drops  
Baby, it gets harder to bear

'Cause your love could send a rocket up to the moon  
Your love hit me just like a lead balloon  
So let's make a wish, seal it with a kiss, my baby  
You know we've got to stop meeting like this

Try to understand  
Our long-distance love affair  
Has gotten out of hand, it's more than I can stand  
Ooh... girl, this I swear

And it hurts, yes, it hurts  
Baby, as I face my calendar  
I mark red Xs off and with each tear that drops  
Baby, it gets harder to bear

Your love could send a rocket up to the moon  
Your love hit me just like a lead balloon  
So let's make a wish, seal it with a kiss, my baby, yeah  
You know we've got to stop meeting like this

Can you find a way to say goodbye  
Without really saying goodbye  
Can you make it easier on me  
Can you stop these tears I cry  
Baby, I can only try  
Can you find a reason why  
Love shouldn't die

I hear what you're saying  
And my love will be waiting  
I hear what you're saying  
And my love will be here  
After your other lovers fall  
If you'll only stop meeting like this... baby

(You know we've got to stop, my love)  
This hurting in our hearts, my love  
(I've been blind) So blind (So blind)

Time after time

(You know we've got to stop it, baby)  
(Woo... ooh... ooh... ooh... hoo...)

You know we've got to stop, my baby  
I've been goin' crazy  
Out of my mind  
Time after time... yeah... hey... hey... baby
