

Another Way

Teenage Bottlerocket

I'm having troubles waking up
I can't stand and wait to be corrected
My phone is disconnected
It's another day I'll try and wake
My only fate
Drive myself to work now
Trying not to look down

I'm having troubles getting chances
I can't miss this
Something that I'm used too
Something that I used too
Do with my friend that I strangely forgot her name
I think it might have been comfort
Or maybe it was messed up

You're bad etiquette
Is something that I'm used too
And everything will be o.k
I don't think I...

You're bad etiquette
Is something that I'm used too
I had the time
I had the chance
Something that I always miss
And I get pissed
Cause I can't say
What is going on today

Another way
Another way
Another way
Another way
Feeling tumbled over
Everything's over (7x)
