

# Never Gonna Tell You

Teenage Bottlerocket

I'm never gonna tell you that I'll never let you go  
I'm never gonna tell you but I'm hoping that you know  
I'm never gonna tell you that I want to go make out  
I'm never gonna tell you that you're all I think about

I'm never gonna tell you, it's true  
My lips are super glued  
You're all I ever talk about when I'm away from you  
I'm never gonna tell you

I'm never gonna tell you when we watched the living dead  
You turned into a zombie and you ate my brain instead  
if I blow my cover I see it coming to an end  
I'm never gonna tell you that you're more than just a friend

I'm never gonna tell you, it's true  
My face is turning blue  
I think that I might fall apart when I'm alone with you  
When I'm alone with you
