

Pull The Plug

Teenage Bottlerocket

Ran into you, that's when I fell down
A feeling tumbled down, spun around and around
I would have lost my mind if I didn't go
This feeling's going nowhere slow
I think I'd rather fall down dead
Every time you're wearing red
I think of all the times that you took it off
And think of all the times that you blew me off

I didn't wanna make a scene
You pull the plug on the sun if you know what I mean
