Don't Hide

Teenage Fanclub

Don't hide who you are Don't hide who you are Why dim your own star?

Your eye can see far Your eye can see far Why dim your own star?

Decide where you are Decide where you are Why dim your own star?

Your light can shine far Your light can shine far Why dim your own star?

I didn't know that my life was wrong Until the right person came along

I didn't know that my life was wrong Until the right person came along

I didn't know that my life was wrong Until the right person came along
