

# Every Step Is A Way Through

Teenage Fanclub

Think it's time you got out of bed and followed through  
'Cause a working clock never stops to miss the change

On the front line,  
You're in the sunshine

Every step is a way (every step is a way)  
Every step is a way (every step is a way)  
Every step is a way through

If you find you're walking on air just open a window  
If you find someone who cares then lock the door

On the front line,  
In the sunshine

Every step is a way (every step is a way)  
Every step is a way (every step is a way)  
Every step is a way through
