

I don't care
I don't wanna hear about
what I'm thinking
I wanna hear something new

But I know you always say
what's on my mind
And I know I'll always know
that I'm not mine

So what if you see other people
I only get jealous when I listen
to The Beatles
So go and get someone new

But I know you'll always be the one
who cares
And I know you'll always be the one
who's there
