Teenage Fanclub

If I could ask you how you feel
Would you reply or produce a shield
For such a long time
Been drinking this wine
That I don't know

And all my friends keep telling me
That you can't drink or get drunk for free

So I'll admit
While I'm still fit
Of my love

That wine was the best girl I ever had That wine was the best girl I never had

I can't deny the feeling
Fizzin' inside my head
All my senses wash away these blues that I've been fed

And if I could ask you how you feel Would you reply or produce a shield?

I'm out on the street And dead on my feet Oh my love

That wine was the best girl I ever had That wine was the best girl I never had
